THE FUTURE OF GAS TURBINE TECHNOLOGY

5TH INTERNATIONAL GAS TURBINE CONFERENCE
27 – 28 OCTOBER 2010, BRUSSELS, BELGIUM

MEDIA PARTNERSHIP

The International Gas Turbine Conference is organised by the European Turbine Network. It takes place biannually in Brussels, Belgium, bringing together the whole value chain of gas turbine technology and research. Representatives from the European and international gas turbine community and policy-makers meet to discuss recent developments and future outlook on the market.

The 5th International Gas Turbine Conference will take place on 27-28 October 2010 in the Conrad Hotel. The conference intends to stimulate creativity and enhanced international cooperation that can lead to the demonstration and implementation of innovative technologies for more efficient and environmentally-friendly gas turbines. It will also explore the role of gas turbines in the energy policy today and in different energy scenarios for the future. Our previous conference in 2008 gathered more than 140 participants from Europe, US, Middle East and Asia, a quarter of them were gas turbine users, and more than a third from OEMs and third party suppliers. For further details and regular updates, please visit the [conference website](#).

Benefits	Media Partner
Logo and designation in preliminary and final conference programme	*
Logo and designation on ETN conference website with a link to partner's website	*
Logo in conference proceedings	*
Possibility to distribute your literature at the conference	*
Complimentary conference registration (free access to the 2-day conference)	1

Organisation		<p>For the 5th International Gas Turbine Conference, ETN is looking for official media partners. Our media partners will have various benefits at the conference listed above and enhance its visibility among the gas turbine community and beyond.</p> <p>In reciprocity, ETN expects the official media partner to:</p> <ul style="list-style-type: none"> • Provide complimentary advertisement(s) about the conference on its website and in the printed materials • Include the conference in its event/conference list • Distribute the conference information electronically through its channel • Provide media coverage for the conference <p>Interested parties should contact Christer Bjorkqvist or Bernadett Parrag at ETN at +32 2 646 1577 or bp@etn-gasturbine.eu.</p> <p>We look forward to cooperating with you.</p>
